

“Hollywood Reels: Addiction in the Movies”

Carla Dvoracek and Casey Jackson

April 30, 2007

Attended: 61

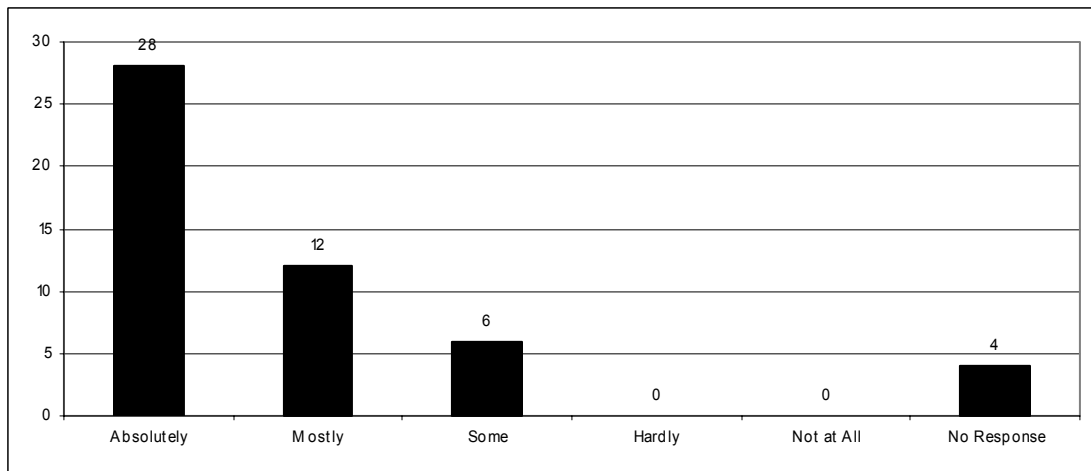

Number of Evaluations: 50

Summary of Individual Workshop Evaluations

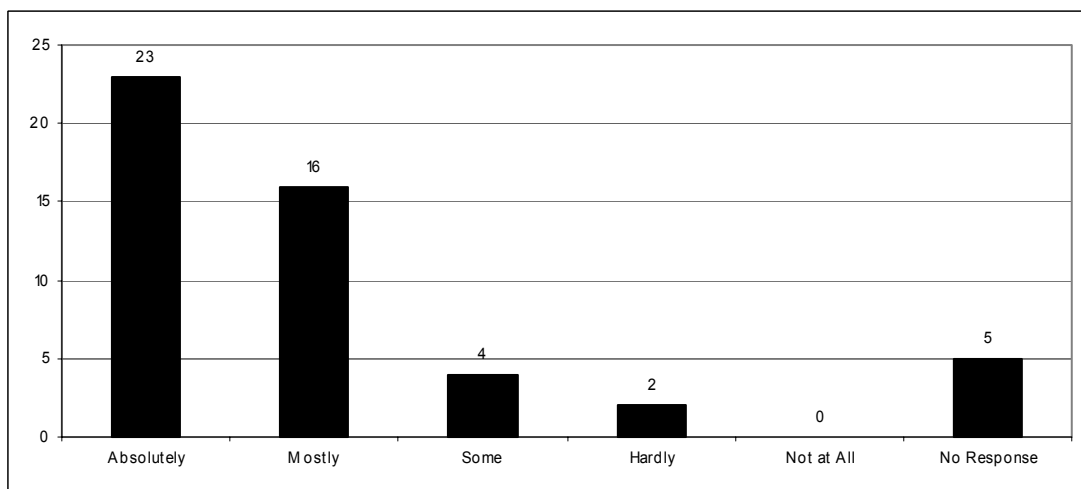

Training Objectives:

Participants will: * **TRAINING OBJECTIVES WERE NOT CORRECTLY STATED ON EVALUATIONS**

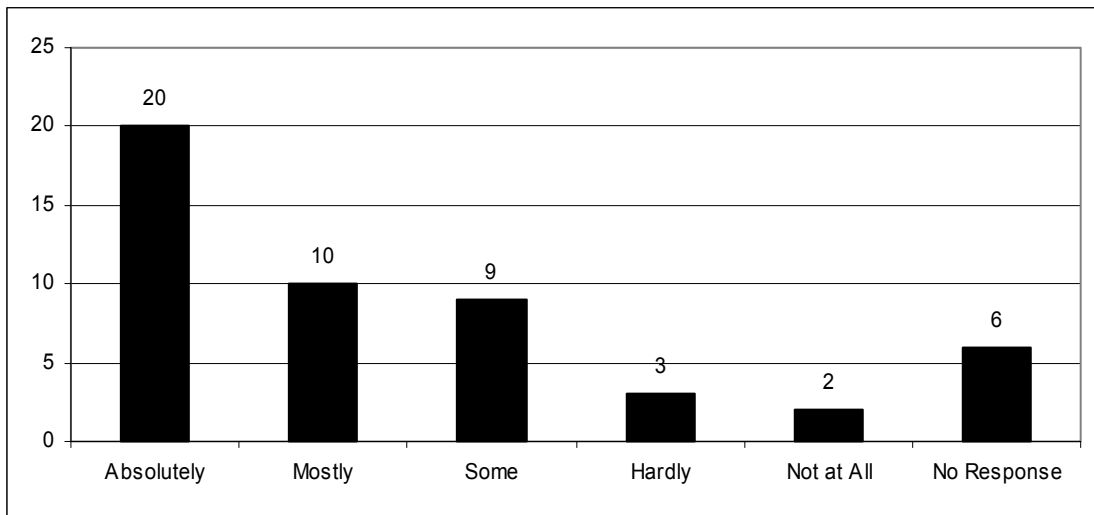

1. Discuss the role of perceptions in communications.

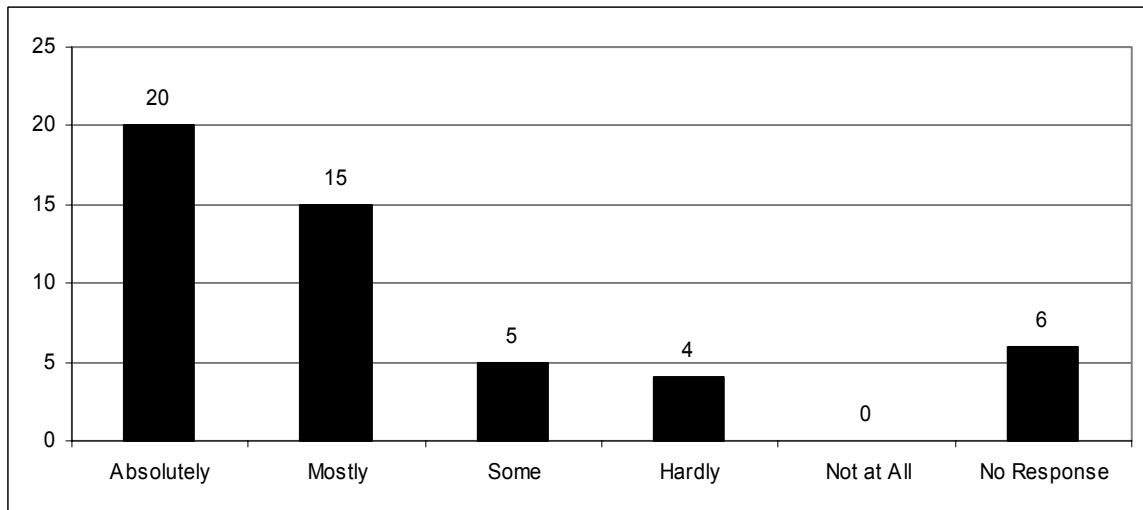

2. Explore the use of power in client-centered care.

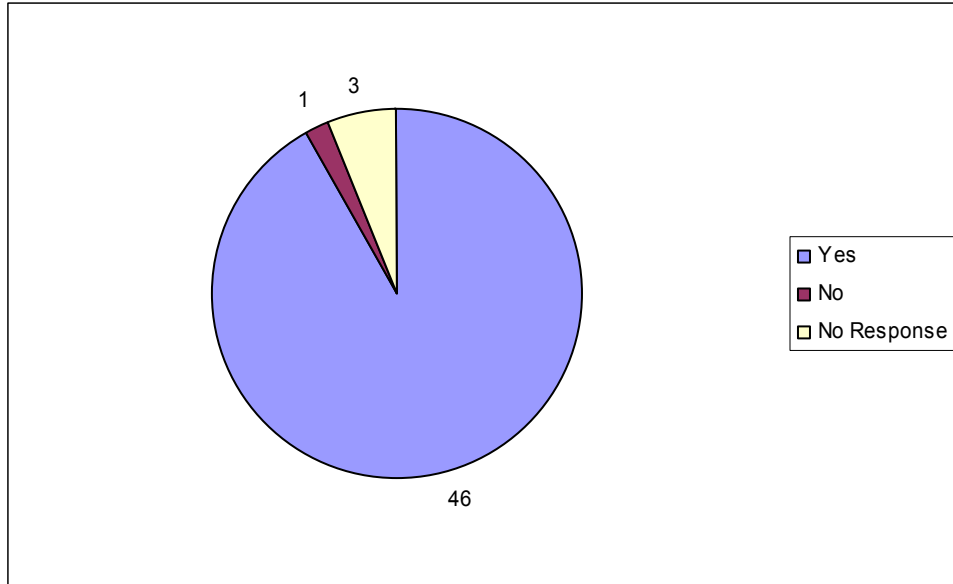

3. Review a framework for effective cross-cultural care.

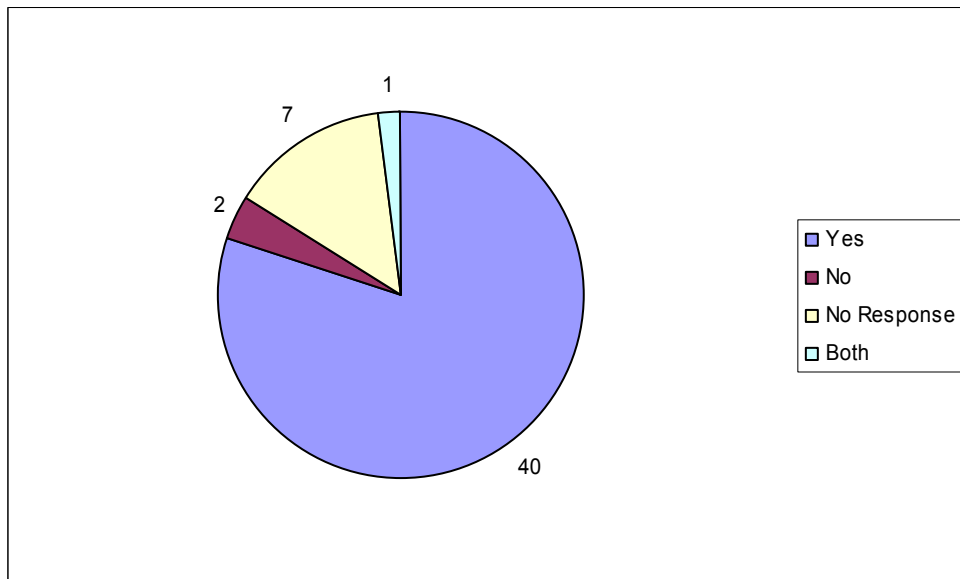

4. Discuss ways that cultural competency skills can enhance strengths-based assessments and care planning.

Would you recommend this training to others?

Has this training resulted in you wanting to know more about this topic?

What were the best aspects of today's training?

- **Vivid depictions of material**
- **That drug addicts have problems that we don't understand**
- **Raw exposure of addiction problems**
- **Using the film clips to help present a more meaningful understanding of addiction**
- **Respectful presenters**
- **Some of the clips made good points**
- **The speakers knowledge**
- **Dynamic – moving – jolting**
- **Innovative approach**
- **Interesting movie clips**
- **Good teaching points**
- **Real life**
- **Having something visually to see**
- **Movie clips**
- **I liked the use of the videos to depict what real life examples look like**
- **The video clips**
- **Media to give a visual picture of the subject**
- **Audio/visual material**
- **The film clips – They are sooo powerful –**
- **Being able to watch the different clips of movies – provides “concrete” info**
- **Level of information – brain chemistry info**
- **Very informative – great presentation**
- **Video cuts were effective**
- **Informing audience of understanding addiction and recovery**
- **Integration of videos – practical with a thoughtful approach to addressing substance use**
- **Clips**
- **Interesting – kept my attention**
- **Video clips followed by lecture of the topic**
- **The clips were great**
- **The movies and interpretations by the presenters**
- **Everything!!**
- **Videos that solidified concepts they were teaching**
- **Understanding addiction is a brain “injury” – effect on the brain**
- **Informative paired with videos**
- **A lot of information that is very useful. Helped to understand addiction.**

What is the one action you intend to take as a result of this training?

- **Understanding drug addicts**
- **More education in addiction study**
- **Keep my sobriety**
- **Stay off drugs**
- **To be more aware of my surroundings with others and intervene when needed**
- **Continue to seek out trainings on this topic**
- **Pass on the knowledge**
- **Learn more about addiction and how to help combat it**
- **Looking at substance use as a brain injury**
- **More research on the subject**
- **To better understand the genetic predisposition in addiction**
- **Look into more information regarding subject**
- **Approach this topic with a holistic practice perspective**
- **How important drugs are to an addict**
- **Change my perception about addiction**
- **Looking at individuals differently – how the addiction changes body chemistry**
- **Understanding more about the addict and the intervention**

How could today's training have been improved?

- **More time**
- **I think the expectations of the training could have been set out from the beginning. I think perhaps my hope from what I was to get from the training was different from the intent.**
- **Hand out of slide info that ties in the clips they use to subject matter**
- **Longer**
- **Would have liked more in depth information. More time?**
- **Process time**
- **Lengthen the time to let them present more**
- **More information I guess I knew more than I thought I did.**
- **No suggestions**
- **Powerpoint copies**
- **Not a thing except maybe more time split into part I and part II so more information can be provided**
- **A preface to this session to warn/advise recovered/recovering addicts of potential trigger events/ euphoric recall potential that may arise in discussion at video presentations**
- **Make this training longer. Very informative! Good job!**
- **More time would like to go to the all day session**
- **I felt that it was the right amount of information during the time limit**

Other comments and/or suggestions?

- **Very powerful**
- **Room setup caused to have the trainers' backs toward some of those who attended and was difficult to see the presentations.**
- **Great presentations format with film clips, etc.**
- **I was hoping for more information about interventions and assessment/referral processes. I felt the presentation focused on a “shock value” of recognizing substance use as an issue.... But in my opinion the community is aware and substances are so prevalent that I didn't need to be shown it was a problem that way. The presentation needed more focus on what to do once the problem has been identified.**
- **Good training – very direct and provides insight into the world of addiction.**
- **Go into depth of negative and positive aspect of addiction and recovery and ending dysfunctional patterns!**
- **Good presentation!**
- **Very well done**
- **This was great!!!**
- **Great workshop**
- **Great presentation!**
- **Excellent**
- **Great seminar**
- **Excellent and informative**
